

## Transcript of Keith Manns Audio Clip

The noise. You know, when you're under heavy gunfire and that's where the – I mean my tin hat was well dented with shrapnel that's another thing, you see. When you're running around at night with – it's alright to say the guns are firing but that other stuff comes down. Some of these lumps of shrapnel were about this long you know. Quite thick, weighed about 4 or 5 ounces. Bang. On your head.
